

Embedded SoC Platform Developer

Accenture is hiring **Embedded SoC Platform Developers** to strengthen our automotive team in Gothenburg. Industry X is Accenture's capability focused on engineering and manufacturing transformation — it's about how products are designed, built, connected, and operated across their entire lifecycle.

About the Role

In this role you build the software foundation for high-performance automotive computing platforms based on modern SoCs and HPCs. Working with QNX OS and virtualization technologies, you enable scalable, safe, and high-performing vehicle architectures. This role is based on-site in Gothenburg, thus we look for candidates having the right to work in Sweden or the EU.

Your Mission

You bring up boards, integrate operating systems and hypervisors, and deliver core platform functionality for complex SoC-based systems. Your work ensures performance, safety, and security across mixed-criticality environments.

What Awaits You

System Bring-Up

You support SoC and HPC bring-up, implement boot chains, and ensure stable system startup from early firmware to OS level.

Virtualization & QNX Expertise

You configure and integrate QNX OS and QNX Hypervisor features, enabling virtualization and mixed-criticality system setups.

Integration & Optimization

You collaborate with system and platform teams to debug, optimize, and deliver end-to-end SoC platform solutions.

What We're Looking Forward To

- You have a completed degree in computer science, electrical engineering, or a comparable technical discipline.
- You bring several years of experience in embedded software development for SoC- or HPC-based systems.
- You have hands-on experience with QNX OS, hypervisor technologies, or strong RTOS/Linux-based platform environments.
- You are familiar with system bring-up, boot chains, virtualization concepts, and platform integration.
- You are willing to travel occasionally depending on project context and enjoy working in international teams.
- You communicate fluently in English; Swedish and/or German language skills are considered a plus.

What we can offer you

- Competitive compensation and benefits
- Flexible worktime with a good work-life balance
- Significant development opportunities and support for progressing in your professional

career.

- Rich opportunities to develop your business acumen, consulting toolbox, industry knowledge, technical and professional skills.
- Meaningful and exciting client projects
- A dedicated mentor following your career journey and a strong learning culture.
- The opportunity to get involved in Accenture's volunteering, Women in Tech, sport- and social groups.
- Access to industry and capability specialists in all corners of the world with outstanding international knowledge and experience and opportunities working with a great variation of projects and industries.
- A great and inclusive working environment, where you will work with inspiring and skilled colleagues and managers.

Sounds like your next challenge? If shaping the software foundation of next-generation vehicles sounds like your kind of work, apply now by sending your CV and relevant certificates.

About Accenture

Accenture is a leading global professional services company that helps the world's leading businesses, governments and other organizations build their digital core, optimize their operations, accelerate revenue growth and enhance citizen services—creating tangible value at speed and scale. We are a talent- and innovation-led company with approximately 791,000 people serving clients in more than 120 countries. Technology is at the core of change today, and we are one of the world's leaders in helping drive that change, with strong ecosystem relationships. We combine our strength in technology and leadership in cloud, data and AI with unmatched industry experience, functional expertise and global delivery capability. Our broad range of services, solutions and assets across Strategy & Consulting, Technology, Operations, Industry X and Song, together with our culture of shared success and commitment to creating 360° value, enable us to help our clients reinvent and build trusted, lasting relationships. We measure our success by the 360° value we create for our clients, each other, our shareholders, partners and communities.
